

## My Trip to Wingham Wildlife Park

Two weeks ago, I went to Wingham Wildlife Park in my year group to learn more about life cycles. I arrived at school and we did the register and then we got into groups. I chose Daisy and then we held hands to the coach and we got on the coach. I felt excited because I had never been to Wingham Wildlife Park before.

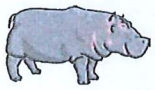

As I got off the coach, I was worried because it looked so big and amazing. We walked to the Arctic where then we saw a red panda being fed. Then, we went through the reptile house (to see the reptiles). Next, we saw the tigers sunbathing in the Sun.

After lunch, we went to see the tall giraffes and one was a baby. I saw a baby giraffe chase its mum because another giraffe scared them.

away. Finally, we went to see the black, fierce bears. By the end of the day I felt worn out because of all that walking. My favourite part of the day was seeing the giraffer as she or he was so cute.
