

The Planet Zog

What Does It Look Like?

The planet Zog is a gigantic, brown planet that floats 400 million light years away from Earth. The planet's surface is made of chocolate and lumpy cream cheese.

Who Lives There?

The creatures that live on Zog are called zargles. They are strange, furry aliens with nine eyes, a lion's mane and a horse's tail. They also have a horn, just like a unicorn, right in the middle of their fluffy faces. What odd-looking monsters they are!

Would you like to visit the planet Zog?

Quick Questions

1. What two things is Zog made of?

2. Which adjective has the author used to show that zargles are peculiar to look at?

3. How long do you think it would take to get to planet Zog?

4. Would you like to visit planet Zog? Why or why not?

The Planet Zog

What Does It Look Like?

The planet Zog is a gigantic, brown planet that floats 400 million light years away from Earth. The planet's surface is made of chocolate and lumpy cream cheese.

Answers

1. What two things is Zog made of?
Chocolate and lumpy cream cheese.

2. Which adjective has the author used to show that zargles are peculiar to look at?
Strange or odd-looking.

3. How long do you think it would take to get to planet Zog?
It would take a very long time to get to the planet Zog because it is 400 million light years away.

4. Would you like to visit planet Zog? Why or why not?
Pupil's own answer with reference to the text, e.g. Yes, because I would like to eat the chocolate or No, because the zargles might be scary.
